

# Practitioner Instruction Manual: Submitting Secondary Claims with COB Data Elements

## OVERVIEW

This supplement to the billing section of the Passport Health Plan (PHP) Provider Manual provides specific coding information on the submission of electronic provider-to-payer\* coordination of benefits (COB) claims. The required COB data elements for submitting Electronic Data Interchange (EDI) claims to PHP may be gathered from the previous payer's adjudication, in both paper and electronic (835) remittance advice formats.

## SPECIFICATIONS

To submit provider-to-payer coordination of benefits (COB) claims via EDI, you must have a system, data entry process, or clearinghouse able to:

- **Create or forward claims directly to EDI in:**
  - o the HIPAA 837 format; or
  - o a format containing equivalent information.

- AND -

- **Process payment information by:**
  - o Receiving a HIPAA-standard electronic remittance advice (ERA) format from the previous payer; or
  - o Coding a paper remittance into the electronic claim.

## EDI TERMINOLOGY

Please refer to the following definitions for EDI terminology used throughout PHP's online application.

**Data Element** – Provides the names used in the ASC X12N 837 implementation guides, including 004010X096A1 and 004010X098A1.

**Loop/Segment** – Provides the exact location of each data element in the 837 format.

**Requirements** – PHP's COB data requirements align with HIPAA guidelines. The 837 Implementation Guide may also be found online at <http://www.wpc-edi.com/>.

## QUESTIONS?

If you have questions regarding this communication, please contact the EDI Technical Support Hotline at (877) 234-2475 or at [ediphp@kmhp.com](mailto:ediphp@kmhp.com).

\*Please note payer-to-payer COB claim submissions are not supported by EDI.
