Governor Steve Beshear has made improving the health and wellness of Kentucky’s children, families and workforce one of his highest priorities. To significantly advance the wellbeing of Kentucky’s citizens, Governor Beshear announced several health goals for the Commonwealth in February 2014. He outlined a number of strategies to help achieve these goals over the next five years, and will continue to add strategies throughout his term. These strategies will be implemented through executive and legislative actions, public-private partnerships and through the success of enrolling Kentuckians in health care coverage.
