

Kentucky Medicaid Copay Policy Update for Providers

Beginning on January 1, 2019, all Managed Care Organizations (MCOs) and providers will be required to charge copays for specific non-preventative services given to some Kentucky Medicaid beneficiaries.

Note: This copay policy will begin on January 1, 2019, whether or not the Kentucky HEALTH program has been implemented.

Frequently Asked Questions (FAQs)

These FAQs refer to the policy that takes effect January 1, 2019

1. How will providers know if a beneficiary has a copay?

Providers should check the Copay Indicator and whether someone has met their cost sharing limit on [KYHealthNet \(KYMMIS.com/KYMMIS/index.aspx\)](http://KYHealthNet.com/KYMMIS.com/KYMMIS/index.aspx) to see if they need to collect a copay. If the beneficiary is subject to copays **and** has not met their cost sharing limit for the quarter, the provider should collect a copay. Please see pages 3 and 4 of the **Managed Care Copayment FAQ & Quick Reference Guide for Providers** for more information and detailed screenshots showing how to check these indicators.

Note: If the beneficiary has reached their cost sharing limit for the quarter, the provider must waive the copay. In these instances, the provider will be fully reimbursed for the service.

2. Are any services exempt from copays?

Exemptions may apply, but are not limited, to:

- Emergency services
- Some family planning services
- Preventive services

Providers should reach out to the MCO for the specific codes.

3. Are any beneficiaries exempt from copays?

Exemptions may apply, but are not limited, to:

- Foster children
- Children enrolled in Medicaid
- Pregnant women (includes 60-day period after pregnancy ends)
- Kentucky Medicaid beneficiaries who have reached their cost share limit for the quarter
- Individuals receiving hospice care

Note: Kentucky Medicaid beneficiaries receiving healthcare services through the Fee-for-Service model have already been paying copays. The policy taking effect on January 1, 2019 is applying that existing copay structure to all Kentucky Medicaid beneficiaries.

In addition, children receiving benefits through the Kentucky Children's Health Insurance Program (KCHIP) already have copays. There will be no changes to their required copays.

More FAQs

Frequently Asked Questions (FAQs) for Providers

These FAQs refer to the policy that takes effect January 1, 2019

4. How will providers know which services require copays?

Please see following pages of this Update or page 5 of the **Managed Care Copayment FAQ & Quick Reference Guide for Providers Document** for Services and Items Requiring a Copay.

5. If a Medicaid beneficiary receives more than one service in one day, will they have multiple copays?

Copays are paid per visit. A visit is defined as an encounter or series of encounters that are performed on the same date of service at the same entity (including telehealth services).

6. Can a provider refuse to see a Medicaid beneficiary if he/she does not pay the copay?

If the beneficiary's income is at or below 100% Federal Poverty Level (FPL), they cannot be refused services. If the beneficiary's income is over 100% FPL and they do not pay the copay, it is up to the provider whether they deny services. Services may only be denied for failure to pay if that is the current business practice for all patients. ***Pregnant women and children can never be refused services for inability to pay.***

7. How will providers know if a beneficiary is under or over 100% Federal Poverty Level (FPL)?

Providers should check [KYHealthNet](#) to see whether a beneficiary is under or over 100% FPL. Please refer to page 6 of the **Managed Care Copayment FAQ & Quick Reference Guide for Providers** for more information and detailed screenshots.

8. How will providers know if a beneficiary is part of one of the exempt groups?

Providers should check [KYHealthNet](#) to see whether a beneficiary is exempt from copays. Please see page 7 of the **Managed Care Copayment FAQ & Quick Reference Guide for Providers** for more information and detailed screenshots.

If you have questions, please contact the appropriate MCO.
